

Gold and Silver Investors Newsletter Subscribers

Description:

Gold and silver prices are skyrocketing and so are many of the stocks associated with them. These investors are looking for new and equally exciting investment opportunities. They are financial newsletter subscribers to a commodities newsletter focusing on small or micro cap stocks in silver and gold markets.

These investors are actively aware of the geopolitical and economic events that have created a bull market in precious metals, and have their eyes and ears open for new places to invest their earnings.

And they have a great history as responders

These investors have a history of responding to direct mail campaigns for aggressive investments and are subscribers to a commodities newsletter focusing on precious metals.

Response opportunities that extend well beyond investing

Finally, these news letter subscribers are upscale active seniors, age 55 and older, who have investment portfolios well over \$250,000.

Recommendations: This list should work well for a variety of mailers – all financial and investment offers, health and fitness, leisure and travel, online banking and investing and many more.
